

EROI (Heroes)

snatch on paper | variable dimensions | 2023

EROI (Heroes) is a series of ripped pieces from the label of the well-known Peroni beer. Through the gesture of ripping, a meaningful word is composed that recalls themes such as disillusionment and the generational relationship with the future perspective. As a kind of manifesto, the rip defines heroines and heroes who resist and survive today's conflicts using the imagery of pause and low-cost leisure that the beer evokes.

The work is displayed in frames with various sizes depending on the capacity of the beer's bottle used (33cl or 66cl).
